UNCLE SAM GIVES ANOTHER APPOINTMENT

E. Murray Blanford--Goes To Texas As Special Agent Of The United States Department Of Justice--Preparation For Law Equips Him For The Place.

NATIVE OF BRECKENRIDGE

Each year there is always someone making more of his opportunities than ever before, and it is the very young man, efficient and energetic, who is carrying off the honors nowadays. Information comes from Washington of the appointment of E. Murray Blanford as Special Agent of the United States Department of Justice and for the present he will be located in San Antonio, Texas, spending some of his time at El Paso.

Five years ago Mr. Blanford went

E. MURRAY BLANFORD

Washington, D. C., to accept a position in the United States Department of Agriculture. He recently resigned, accept his new appointment. In the fall of 1908, Mr. Blanford entered the school at Georgetown University and graduated from the Institution in 11, receiving the degree of L. L. B. He passed the bar examination and was admitted to practice in the Supreme Court of the District of Columbia, and the Court of Appeals of the District of Columbia. Mr. Blanford has always had great faith in education and took every advantage to broaden it. Before he went east, he was graduated from the Southern Normal School of Bowling Green, now the Western Kentucky State Normal School, receiving the degrees of B. S. and A. B. One might say that the son of Charles Blanford's son got his first teaching school for he had two years experience in his home county Breckenridge and one year down south. With thrift, prudence and determination, Mr. Blanford has gotten a place where he is recognized by those who dish out appointments worth vying.

Mr. and Mrs. Blanford and their baby son are in Texas now. Mrs. Blanford was Miss Lillian Burch, of Washington, D. C., and she is a delightful young woman.

CHILD WELFARE

EXHIBIT AND CONFERENCE HELD
LOUISVILLE, WITH LARGE
ATTENDANCE.

Ten Thousand Visitors on Opening
Night Hear Children Sing, Speeches
and Witness Boy Scouts in Grand
March.

Louisville, Ky.—The Child Welfare
Exhibit, planned as a mighty stimulus
to the people of Kentucky, was open-
ed in the Armory with 15,000 enthusi-
astic spectators in attendance. It is
the first exhibit of the kind ever held
in the South, and the magnitude of
the work can be better appreciated
when it is understood that an enor-
mous corps of efficient workers has
been at work for two years or more in preparing
the displays.

The exhibit was opened formally at
5 o'clock, and the program of enter-
tainment will last through the rest of
the week, ending Saturday, November
3. An interesting program for every
day except Sunday has been prepared.
The doors were thrown open by
Mrs. Morris B. Belknap, president of
the Kentucky Child Welfare Confer-
ence and Exhibit. The grand march
and court of honor in the center of
the main floor followed. Composing
the court were the chairmen of the various
committees in charge of the work, the
Boy Scouts, Mayor Head and 1,000
school children.

A State-Wide Exhibit.

The exhibit, while much of it is de-
voted to Louisville conditions, is a
state-wide affair, workers having been
sent to the rural districts to secure
valuable data. Practically every sec-
tion of Kentucky was represented in
one way or another. Typical conditions
of the famous Bluegrass region were
placed in juxtaposition with the en-
vironment of the mountain people.
The various cities had something ideal
to show, and for the sake of compar-
ison actual conditions were used to
hasten the contrast and emphasize
the lesson.

The greater part of the exhibit is
composed of pictorial designs, though
object lessons are found here and
there in the use of wax figures for de-
monstrating apparatus, and models of
various school buildings, nurseries,
playgrounds are to be seen. Photo-
graphs of actual circumstances are
placed on screens beside pictures of
the things desired for the improve-
ment of the children. Charts, maps,
diagrams and sketches of interesting
study and skillful workmanship have
their part in the displays.

FIRE AT CYNTHIANA

Losses Aggregating Seven Thousand
Dollars Suffered in Flames.

Cynthiana, Ky.—Fire of unknown
origin in the Frisbie building caused
a loss of about \$7,000. The building
is three stories high and the fire is
thought to have started in the attic
at the head of the elevator shaft. The
heaviest losers are the Frisbie Furni-
ture company, which occupies the first
and second floors, whose loss is \$4,000.
The United Workmen, who own the
building and occupy the third floor,
place their loss at \$2,500. The Modern
Woodmen and several other secret
societies also use the third floor for
meetings, and their losses will ag-
gregate \$500. All losses partly cov-
ered by insurance.

"There could be no better medicine
than Chamberlain's Cough Remedy.
My children were all sick with whoop-
ing cough. One of them was in bed,
had a high fever and was coughing up
blood. Our doctor gave them Chamber-
lain's Cough Remedy and the first dose
cured them, and three bottles cured
them," says Mrs. R. A. Donaldson, of
Lexington, Miss. For sale by all deal-

RAISES THREE CROPS

COLORED FARMER MAKES RE-

By Rotating He Succeeds in Securing
Three Different Crops of Good
Quality in One Season.

Lexington, Ky.—Clark Pepper, a ne-
gro, who owns and cultivates seven
acres of land on the Newtown pike,
near this city, has attracted the at-
tention of crop rotation experts by the
fact that he has this year raised three
distinct crops on the same land, and
the products of each series have been
of the very highest type. The negro
plowed the ground only once, and he
explains that the first crop was put in
early in March, and when it had got-
ten under way the second was started
beside it.

The third followed later in the sea-
son, after the first had practically ma-
tured and the roots of the second had
secured a good foothold. He is espe-
cially proud of a splendid crop of to-
bacco that he raised on the same
ground that had been planted in kale
greens and roasting ear corn early in
the season.

The following are some of the com-
binations which he used in the series
of successions during the season: Onions,
radishes, salsify; cabbage, po-
tatoes, celery; kale greens, corn, to-
bacco; radishes, lettuce, carrots; Irish
potatoes, corn, turnips.

People with kidney ills want to be
cured. When one suffers the tortures
of an aching back, relief is eagerly
sought for. There are many remedies
today that relieve, but not permanent-
ly. Doan's Kidney Pills have brought
lasting results to thousands. Here is
proof of merit from this vicinity.

Henry Hall, Hartford, Ky., says: "I
have used Doan's Kidney Pills for about
a year and have found them to be an
excellent remedy for kidney complaint.
I had pains in my back and in my
sides. Seelug Doan's Kidney Pills ad-
vertised, I procured a box and they did
me a world of good. I can therefore re-
commend them to anyone suffering from
kidney trouble."

The above is not an isolated case. Mr.
Hall is only one of many in this vicin-
ity who have gratefully endorsed Doan's.
If your back aches—if your kidneys
bother you, don't simply ask for a kid-
ney remedy—Ask distinctly for Doan's
Kidney Pills, the same that Mr. Hall
had. 50c all stores. Foster-Milburn Co.,

The tobacco grower is the only person who could complain of the fine weather we have had this fall and still having.

Turkey and cranberries will taste just as good at Christmas time—and better if you are not going to have a big Thanksgiving dinner tomorrow.

Mrs. Hetty Green, the world's richest woman, took time on her seventy-eighth birthday to dictate ten "don'ts" for girls. Just that ten would keep any girl happy and busy.

Mr. John Burn lead a splendid Thanksgiving service in this city Sunday evening. He said the way to be thankful was to talk about the things we had to be thankful for and let the others go.

How much more a man can get for his money when he buys something to take home. At a restaurant twenty-five cents serves oysters enough for one, and when you take a quarter's worth home there are oysters enough for six. A nickel will buy not an extra good cigar, but it gets a pitcher of buttermilk that the whole family will relish.

Genuine gratitude is full of action. It gives a man energy, it keeps him constantly paying the world back for all the good things of life. Gratitude never lags, it does not premeditate, and never has an apology for putting off thanking one so long for a kindness. Gratitude never forgets. Gratitude is kind and tender and forgiving. A heart full of gratitude is a heart full of love. And love never fails.

We should like to have more letters from our subscribers for publication with or without name. Tell us about your home—for that is the most interesting place in the world. There is no place like it. Tell us about a good book you have read, or something you have accomplished. Most of us stay at home, some have the fortune to go abroad, and those of us who cannot have the pleasure of seeing new places, can find wonderful interests right around us, if we keep our eyes open.

Life pensions for Presidents, we think, is asking too much of the people. Andrew Carnegie wants to give \$25,000 annually to each future ex-President of the United States. Mr. Carnegie will not live forever, and the nation hasn't many pocketbooks the size of his. A man who surrenders the Presidency is not an old broken-down soldier, he is a man of experience and capable of a broad field of usefulness that is always lucrative. Mr. Taft is said to have saved one

hundred and fifty thousand dollars for his future. How many postmasters and other men in the Government service have used such foresight and resisted the temptations that come to a man with a fat salary? Mr. Taft must get a deal of satisfaction out of knowing he was bigger than his presidential salary, and he handled it so well that he is independent of Mr. Carnegie's offer.

Senator-elect Ollie James and Congressman Ben Johnson were in Louisville last week on their way to Washington. While there they were besieged with office-seekers. Mr. James said he was sorry there were not offices enough to go around, because he said there were so many good Democrats that were very deserving. He said he had not decided on any recommendations yet, but would give every applicant a hearing. When asked what he thought of the plan of deciding postmasterships by means of primary elections, he said that was purely local. The Democrats in his own town had adopted that plan, and it seemed to be satisfactory. Congressman Ben Johnson said that just as soon as he learns what President-elect Wilson intended to do relative to postoffices of the fourth class, he would know what he could do in the matter of recommendations for fourth-class postmasterships. He said further, that if President-elect Wilson decides to take those offices out of the civil service, he would then be ready to make up these matters with those who are seeking appointments.

Old Bachelors' Club Has Grand Time at Their Annual 'Possum Supper—Speech by Wm. Jennings and Others.

Most of the tobacco grown around has been sold to Mr. Jennings, of Cloverport.

Miss Ossie Payne and Miss Marie Bandy spent the week end at Lodi-burg the guests of Miss Nina Hardin and Miss Mamie Adkisson.

J. W. French, of Stephensport, spent Sunday the guest of his uncle, H. C. Haddock.

Miss Mae Claycomb, of Louisville, who has been visiting friends and relatives here, has returned home.

Arthur Drane, who is salesman for Johnston Bros., was at home Sunday. Miss Evelyn King, of Hardinsburg, is visiting Miss Ossie Payne.

At the bachelor home of C. B. English on last Wednesday night the Old Bachelors' Club, of Webster Grove, had their fourth annual 'possum supper. Owing to the good marksmanship of the hunters of the club, the table was most bountifully laden with quail and wild duck. Music was furnished through supper hour by Hayden's celebrated colored string band. The dining room doors were thrown open at 8:30, and the guests, lead by Will Jennings, of Cloverport, marched in to supper to the sweet strains of "Is Everybody Happy?" After supper we had several good speeches. Thos. McGavock's talk on "How to Be Happy" was enjoyed. Mr. Jennings' talk on "How I Come to Be a Bachelor" was

pathetic and heart-touching. J. B. Gibson's essay on "Sweet Memories of Bachelorhood Days" held the attention of both the bachelors and otherwise. Harry Stewart's talk on "The Tricks and Usefulness of the 'Possum'" fit in splendidly. H. C. Haddock's after dinner speech in defiance of the old bachelors made the club members feel good. At 12 o'clock the band played "Everybody Looks Alike to Me," and every one departed thanking the club and Mr. English for the happy evening.

Today I bought a pair of gloves for three francs—60 cents. They are very cheap here. This kind in America would cost, at least, three or four times as much. Shoes are very expensive. Emma Helen would go crazy about the dolls they are very fine and inexpensive.

Corn can not be had and only a very few tomatoes at a price unheard of, but mushrooms are only a few cents. Mrs. Eggerickxx, [Eggrick] our landlady, has a little French maid, Helene, and she brings up the bread, milk and mail every morning. On Wednesday she scrubs everything, floors and all. She wears wooden shoes—sabots (sabo) as do all the working class of Belgium. All the floors are tile and painted wood with rugs that can be taken up for scrubbing. The people keep the houses painfully neat, but themselves they neglect. It is nothing for a Belgium to go three months without a bath all over.

The boys J. G's age wear socks like Coleman. The girls of sixteen wear their hair down their back unplaited. Even the older ones do this. The leaves are all off the trees, yet one still sees the boys' bare legs above their sox. I do not know when they take them off for the winter. I decided I did not want a mustache so I cut it off. Should you chance to go to Washington this winter you will find it scattered along the way, on trees, fences and shrubbery or perhaps it is over in Miss Tula's pasture by now.

Panama Pacific Exposition Buildings.

Final plans for the architecture of the Panama Pacific Exposition at San Francisco, in 1915, have been definitely accepted, and all of the main exhibit buildings are expected to be completed before July, 1914, eight months before the exposition is to be opened to the public. The exhibit group of structures will be the loftiest exposition building ever constructed, and one of the architectural features will be the series of inner courts between the main exhibit places, each court expressing some distinct architectural design, as shown in a number of pictures in the December Popular Mechanics.

A Noted Educator on the Chicago Stock Show.

Prof. W. A. Henry, in speaking of the International Live Stock Exposition, which will this year be held from Nov. 30th to Dec. 7th, said:

"The International is a clean show. It has but one purpose—the betterment of the live stock of the West. One can attend the International in full assurance that this grand purpose rules supreme.

"To the farmer whose son has been faithful this season, let me urge, take him to the International.

"If your boy shows indifference to farming, and you long to keep him on the old home place, take him to the International and arouse his ambitions.

"If your farm is operated by a tenant or renter, and you would like to arouse in him a keener interest for better stock, take him to the International.

"The more good live stock there is in any neighborhood, the more valuable becomes the property there. Urge your neighbors to go with you to the International."

KENTUCKY STATE UNIVERSITY WORK

Extends To Cloverport—Three Men Of The Extension Division And Domestic Science Teacher Here Four Days At The High School—Horticulture Discussed.

MUCH INTEREST AT C. H. S.

Interest, decision, action, all three at C. H. S. Just as soon as Prof. Aubyn Chinn, Prof. T. R. Bryant, Prof. H. B. Hedrick, and Prof. J. H. Carmody stepped into the school building in this city the attention of 200 young Kentuckians was gotten and it was held until they became thoroughly interested in the work of the Extension Division of the College of Agriculture of Kentucky State University. The boys and girls of the High School decided at once to organize clubs and the activity that went on was equal to that of a suffragette meeting. Electing presidents and secretaries and other officers made the ballots fly. An Agricultural Club and a Home Economics Club were organized.

Prof. J. H. Carmody, whose specialty is horticulture, gave an instructive lecture Tuesday night with illustrations. After Mr. Carmody's lecture, one young lady spoke up with the delight of a girl who has just got on to a new fashion. "I never knew before that apple trees could be cut down low and bear fruit." Mr. Carmody proved by his lecture and pictures that one doesn't have to use a ladder or climb a tree for the big red apples any more. High fruit trees are out of style. Mr. Carmody told his audience much about horticulture that he thought surely everyone knew as well as he did. They didn't know half he told them and it was a lecture that will be recalled many times.

Prof. H. B. Hedrick lectured to the boys about corn, soils and farm crops, etc. The boys' corn club movement was started through his efforts and he said enough to give the boys the "Corn fever" so they will not get over it.

Prof. T. R. Bryant did a bit of personal work among the farmers, who were in town during the week. He likes to meet them and hear directly what they are doing to improve their farms and perfect their stock.

Prof. Aubyn Chinn gave domestic science lectures every day and organized a class in the High School, who will continue their lessons from the State University by mail. The girls were intensely interested in the lessons. What they learned about food in a week will help them for many years to come. One family had rice three times a day last week because the domestic daughter of the family learned that it produces heat and energy.

Miss Chinn was the guest of Mrs. David Phelps while here and the University men stayed at the Duncan House. They left Friday for Lexington. The school will be held in Irvington December 10th and at Hardinsburg next week.

MANY WOMEN CARRY BANK ACCOUNTS

This bank has opened a Women's Department, that is, we are delighted to have women depositors. We know that women are better financiers than men, but they have never had an opportunity to develop their talent for saving and managing the funds of the household. Men have come first in making bank deposits and looking after the cash.

But the list of women who are taking advantage of the conveniences of banking facilities is growing and we are pleased to have our bank as their depository.

We cordially invite all women to carry their accounts with us.

ARE YOU A SALARIED MAN?

Do you live on a certain allowance each month, or do you "have money to spare?" Do you have to figure close to make ends meet or do you waste money on idle pleasures?

In any case you cannot afford to be without a bank account. No matter how small your salary you can and SHOULD have a little here and a little there in order to provide for the future. If you spend your money foolishly, you can soon get out of the habit by depositing a little each week or each month.

Persistent saving, with the liberal interest we add, will make the account grow surprisingly fast.

Fruit Cake Over 50 Years Old.

Few people are ever allowed to partake of fruit cake that has reached the ripe old age of fifty-two years. Our friend, Mr. Charles Chamberlain, in a recent visit to his home town, Charton, Ohio, was given a slice of cake having a most interesting history. Fifty-two years ago there lived in the town of Charton, Ohio, a charming maiden who was betrothed to a Southern planter the wedding day was set, the preparations for the wedding feast were made, and among other things a huge fruit cake was baked. The happy lover, en route from his Southern plantation to claim his Northern bride, was stricken with the dread yellow fever, and died before reaching his destination. The bride vowed the cake should never be eaten as long as she lived, so placing it in a metal box she sealed it securely. This summer having lived true to her vow and the love of long ago, she passed away. While watching beside her bier some of her early friends recalled this incident and inquiring of the housekeeper, found and opened the box lying the cake well preserved and most toothsome. Mr. Chamberlain was given a slice of this ancient cake, and is most generously giving a crumb or so to his most intimate friends.—Irvington correspondent.

TOWER OF THE ADMINISTRATION BUILDING, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

FROM an architectural viewpoint the dominating feature of the Panama-Pacific International Exposition will be the huge tower of the Administration building. Rising 375 feet in height and flanked on either side by the domes, towers and minarets of the eight great exhibit palaces, the huge tower will be at all times the most conspicuous feature of the Exposition City. From San Francisco harbor it will appear as the central feature in the great rectangle of exhibit palaces, whose sky line will be 110 feet in height, whose domes will rise 144 feet and whose lesser towers will be 155 feet in height. From afar this central group will appear almost as a single palace, four-fifths of a mile long and 1,200 feet in width; nearer at hand it will be found that the exhibit palaces are interspersed with great open courts, each designed by notable groups of American's foremost architects. The inner courts will express the highest ideal of the architect, the sculptor, the colorist and the landscape gardener. The Exposition palaces will be the loftiest ever constructed; the grouping of huge buildings will give an effect of almost inconceivable massiveness and grandeur. At the base of the tower, which will occupy an acre in extent, will be a huge arcade beneath which visitors may enter from the main exposition entrance into the grand Court of Honor. This court, which will be 700 by 900 feet in its greatest dimensions, was designed by McKim, Mead & White.

MYTILENE TAKEN BY GREENS

Little is Renewed at Tchatalja Lines
—Ottoman Council Bows to Moslem Law that No Possession Shall Be Abandoned—Warship Damaged.

Sofia, Bulgaria, Nov. 23.—Indications are that Bulgaria will adopt a conciliatory attitude and will modify the conditions originally offered to the Turkish government.

A special meeting of the Bulgarian cabinet was held to consider the rejection by Turkey of the terms of the proposed armistice. At its conclusion it was declared in well informed circles that an immediate resumption of hostilities was improbable.

Hope of Armistice Remains.

London, England, Nov. 23.—"Come and take them"—was the defiant reply of the Turks to the demand by the allied Balkan nations for evacuation of the line of fortifications at Tchatalja, in front of Constantinople—is not believed in diplomatic circles necessarily to mean the end of the negotiations for an armistice, though fighting has been resumed.

From Sofia comes word that the victorious invaders may modify their conditions. The European powers are exerting themselves to induce the nations composing the Balkan league to bring their terms more into line with the facts of the situation and to arrange a treaty which will give them all they have conquered, but will leave out that which has not been conquered.

Turks Consider Position Favorable.

Compared with its earlier disastrous experiences, the Turkish army evidently considers itself in a favorable position. Military experts here see in the at least temporary failure of the Bulgarian rush into Constantinople signs of a reaction among the invaders after their sustained efforts of the last month.

As the Ottoman capital, even if captured, must be evacuated ultimately in accordance with the decree of the great powers, it appears that the allies have nothing to gain by insisting on the surrender of the lines which form virtually the gates of the city. Hence the hope expressed by diplomats that this demand will be withdrawn, in which case it is believed that Turkey, recognizing that she has no prospect of taking the offensive for the recovery of her lost territory, would decide quickly that she has nothing to gain by continuing the conflict. She would consent, perhaps, to enter negotiations on the basis of a surrender of all but a reasonable strip at the back of Constantinople, the Dardanelles and the Bosphorus.

Island of Mytilene Taken.

Constantinople, Turkey, Nov. 23.—It is reported that a Greek squadron has landed troops and taken possession of the island of Mytilene.

Fighting Is Renewed.

Constantinople, Turkey, Nov. 23.—The battle at the Tchatalja lines has been resumed. Cannonading was reopened with great violence, and is plainly audible here.

Why Terms Were Refused.

London, England, Nov. 23.—The Constantinople correspondent of the Daily Telegraph explains that the Moslem law provides that no part of the khalf's possessions shall be abandoned except in cases of "irresistible compulsion." The council's rejection of the Bulgarian terms was based on this law and was suggested by the successful resistance the Turks have made at Tchatalja.

Diplomatic circles save the

HOW GIRLS MAY AVOID PERIODIC PAINS

The Experience of Two Girls Here Related For The Benefit of Others.

Rochester, N. Y.—"I have a daughter 13 years old who has always been very healthy until recently when she complained of dizziness and cramps every month, so bad that I would have to keep her home from school and put her to bed to get relief.

"After giving her only two bottles of Lydia E. Pinkham's Vegetable Compound she is now enjoying the best of health. I cannot praise your Compound too highly. I want every good mother to read what your medicine has done for my child."—Mrs. RICHARD N. DUNHAM, 311 Exchange St., Rochester, N. Y.

Stoutsville, Ohio.—"I suffered from headaches, backache and was very irregular. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and before I had taken the whole of two bottles I found relief. I am only sixteen years old, but I have better health than for two or three years.

I cannot express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I had taken other medicines but did not find relief."—Miss CORA B. FOSNAUGH, Stoutsville, Ohio, R.F.D., No. 1.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for their daughters have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Respondent, believe the struggle will be prolonged unless the allies land troops in the Gulf of Saros, which is considered not improbable.

The Constantinople correspondent of the Daily Mail in a late dispatch says an attack from the rear on the Dardanelles forts, with the co-operation of the Greek fleet, trying to force the straits, seems imminent. The sudden and unexpected breaking of peace measures has been marked by a renewal of distant cannonading, heard from the hills of Constantinople.

Turk Battleship Sinking.

Constantinople, Nov. 23.—With the water pouring into her hold from several big holes beneath the water line, the Turkish battleship Mesludiyh was towed in a sinking condition, stern first, into the Golden Horn.

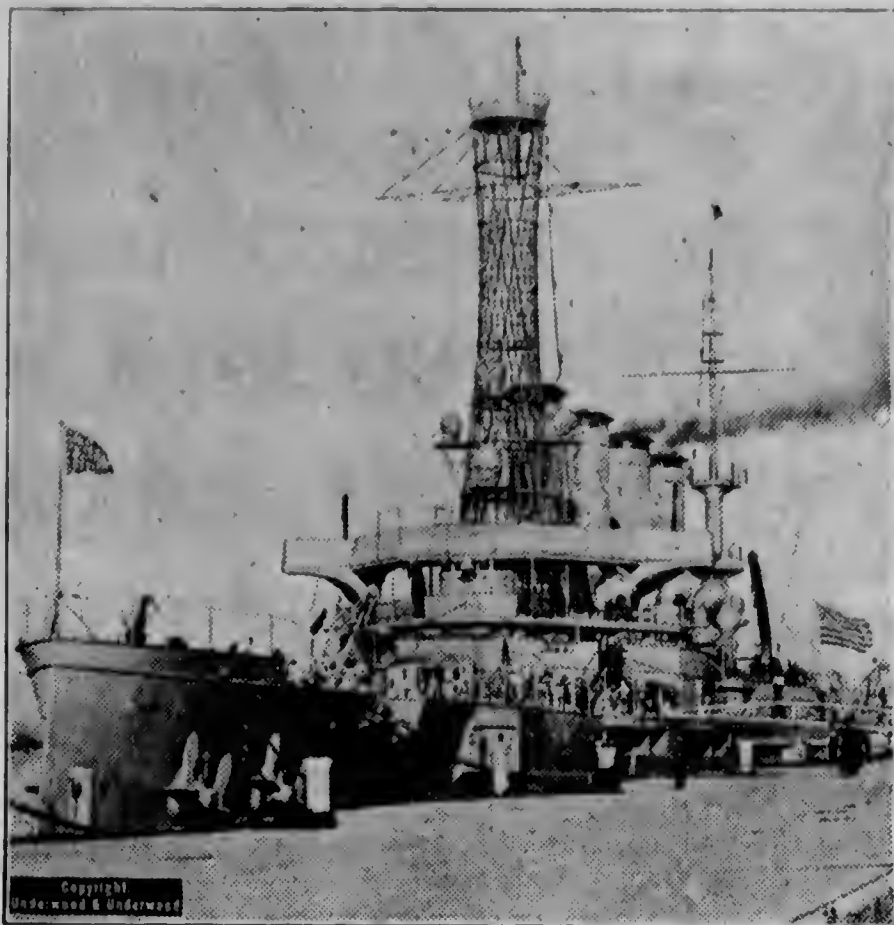

Although government officials vouchsafed no information it was believed that the battleship had been attacked by a flotilla of Bulgarian torpedo boats.

SCHRANK IS INSANE

AIMED AT THIRD TERM, HE TELLS EXPERTS, AND NOT AT ROOSEVELT AS PARTY CHIEF.

HOPES HE AWOKE NATION

Unanimous Verdict of Alienists Given at Milwaukee Contains Several Thousand Words—Colonel's Assassin Says He Does Not Fear Death.

Milwaukee, Wis., Nov. 23.—The commission of alienists investigating the mental condition of John Schrank reported unanimously that the assailant of Colonel Roosevelt is insane.

The conclusions reached by the commission are as follows: "John Schrank is suffering from insane delusion, grandiose in character and of a systematized variety. In our opinion he is insane at the present time. On account of the connection existing between his delusions and the act with which he stands charged we are of the opinion he is unable to confer intelligently with counsel on the conduct of his defense."

Schrank was committed to the state hospital for the criminal insane at Oshkosh by Judge Backus.

Prisoner Listens Intently.

The prisoner listened intently to the report of the commission of alienists, which was read by the chairman, Dr. Richard Dewey. The report consisted of several thousand words and started by setting forth the personal and family history of the defendant. It contains a long statement to Chief of Police Janssen on the day following Schrank's arrest. The concluding part consists of a lengthy address by which he apologized for causing unpleasantness in asking them to pass a verdict on a case which should have been tried by a higher than an earthly court. He went on to review the delusions, with which he claimed to have looked into the dying eyes of the late President McKinley and added: "When a voice called to me to avenge his death I was confident that my life was coming soon to an end and I was at once happy to know that my real mission on this earth was to die for my country and the cause of republicanism."

Aimed at the Third Term.

"The shot at Milwaukee which created an echo in all parts of the world was not a shot fired at the citizen Roosevelt, not a shot at an ex-president, not a shot at the candidate of a so-called progressive party, not a shot to influence the pending election, not a shot to gain for me notoriety; no, it was simply to establish once and forever the fact that any man who hereafter aspired to a third presidential term will do so at the risk of his life. If I cannot defend tradition, I cannot defend the country in case of war; you may as well send every patriot to prison."

"I hope that the shot at Milwaukee has awakened the patriotism of the American nation, that it has opened their eyes to the real danger and shown them the only safe way out of it, as is proved by the election returns in the great Democratic party."

Has No Fear of Death.

"I have been accused of having selected a state where capital punishment is abolished. I would say I did not know the laws of any state I traveled through, and it would be ridiculous for me to fear death after the act, as I expected to die during the act and not live to tell the story. If I knew that my death would have made the third term tradition more sacred I am sorry I could not die for my country."

"Prison for me is like going to war. Before me is the spirit of George Washington; behind me that of McKinley."

Ispheming Editor to Be Placed on Trial for Libel on That Date—Error Is Discovered.

Marquette, Mich., Nov. 23.—The trial of George A. Newett, an editor of Ispheming, charged with criminal libel on complaint of Col. Theodore Roosevelt, will take place in the court of Justice Samuel E. Byrne in this city. The date fixed is November 26. It is not probably, however, that anything more than the arraignment of the defendant will be accomplished at this time.

This new turn in the proceedings is a result of an error in considering criminal libel a misdemeanor under the common law, whereas it is merely the violation of an ordinance, the maximum penalty for which is a fine of \$100 or imprisonment for 90 days.

NEW MINISTER TO BELGIUM

President Bible declared that the appointment of a secretary means that the work of the association will now be carried on in earnest.

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable.

Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
